# YusoFleet Driver App

## Instructions - Android users

Some Android phones vary but if yours blocks the app after the download then this may appear (see screen shots below) and please follow these basic steps...

1. Click Settings.
2. Make sure the tick is selected (allow this installation only) then click ok and the app will simply install.

You can also find the setting for this - goto to your security settings on your Android phone as seen in the 3rd image below and turn on (Unknown Sources)

# YusoFleet Driver App

## Instructions - Login

Simply type your email address in...

and the password for this app is  
(**password**) lower case letters...

GOODLUCK!

A screenshot of the Driver app login interface. At the top, the status bar shows 55% battery and 6:48 p.m. The app header features the word "DRIVER" in white on a blue background, with a colorful city skyline illustration below it. The main content area has a light gray background and contains two input fields: the first is labeled "john1234@gmail.com" and the second is labeled "Password". Below the fields is a blue rounded rectangular button labeled "Sign in". At the bottom, there is a blue link labeled "Forgot password?".

55% 6:48 p.m.

# ASAP RIDES

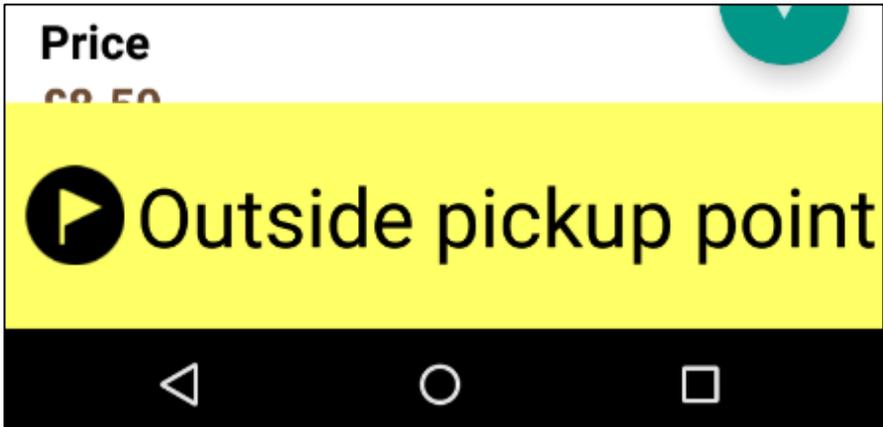

Click **Available** to receive rides.  
**On break/paused:** no rides for now but still located.  
**End of service** when you finished your day

Wait for an ASAP ride alert to come up you have **20 seconds to accept or refuse** the ride. If accepted the client gets a text message and your status is "On way"

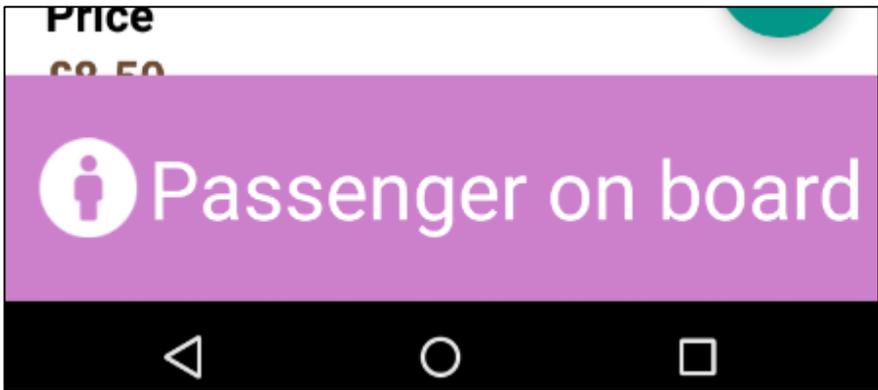

You can use the Waze button to **navigate** to the pick up address (and then to the drop off address)

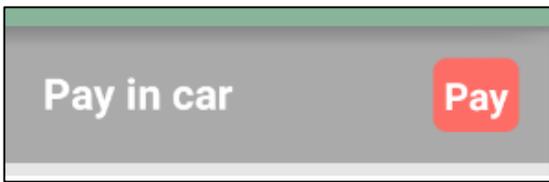

Press "Outside pickup point" when **waiting for the passenger**. The client gets a text message

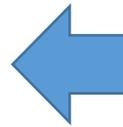

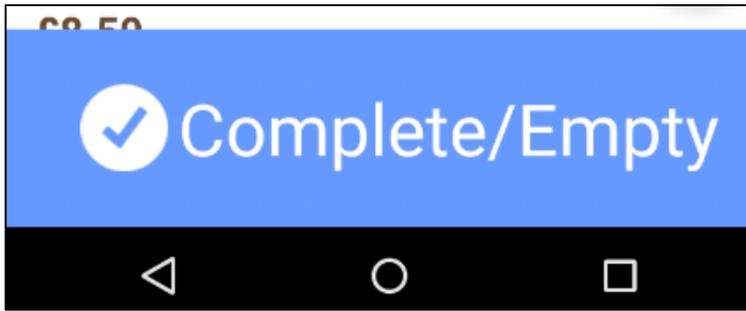

**From the moment you press "Outside pickup point" until you press "POB", the waiting time is processed. You'll be prompted to confirm or cancel the wait if it exceeds the free waiting time**

Press "POB" once **the client gets in the car**

If the client has to pay in the car, click pay at the top right of the screen to notify they paid before finishing the job

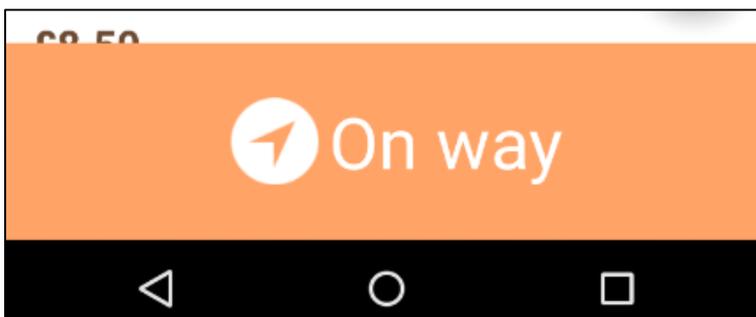

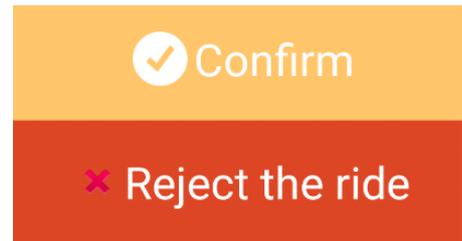

Click "Complete/Empty" when the client got out of the car. If the details of the rides are still on the screen then **press the back button** of your device

### Manually dispatched rides

The main screen displays your past rides and rides to come. **A ride appears in yellow when you have yet to accept or refuse it.** To do so click on the ride (details appear) and choose

When it is time to get to the pick up point (30 min before the pick up time), click on the ride and then press "On way". Then the behavior is **the same as for ASAP rides**
